

ENSURE THE SAFETY OF YOUR CUSTOMERS AND THEIR LOVED ONES

Easy-to-Install Overhead Camera System Detects Distress Behavior Using Advanced Artificial Intelligence

CamerEye is reinventing swimming pool safety by introducing the first artificial intelligence powered system to provide faster distress detection and help save lives. CamerEye is an innovative solution which creates a safety and security ecosystem that allows pool owners to **MONITOR** their pool 24/7, **DETECT** distress or near-drowning behavior through AI powered overhead cameras, and receive an **ALERT** within ten seconds of distress being detected. CamerEye offers better distress detection through this affordable and easy-to-install system that keeps pool owners connected to their backyard as a part of their smart home ecosystem while providing another “eye” on their pool for peace of mind.

PEACE OF MIND

CamerEye adds another layer of safety to your pool. Non-swimmers, family, or neighborhood friends can be safe and have fun.

24/7 MONITORING

When response time is critical and seconds can save a life, CamerEye makes all the difference. Detection alerts on the mobile app, camera, and cell phones enable quicker responses.

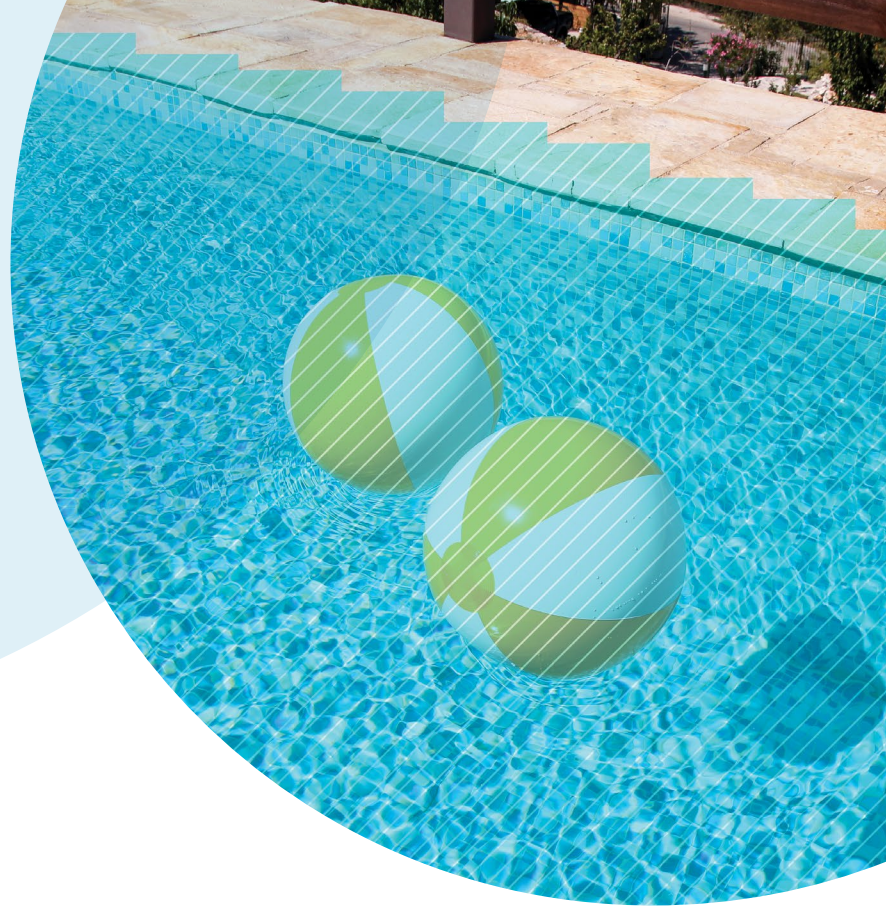

ENHANCED SECURITY AND SAFETY

CamerEye uses cutting-edge Artificial Intelligence technology, integrated with high-performance cameras that send alerts to your phone via the mobile app, creating a 24/7 safety and security ecosystem.

Customize Monitoring Areas and Configure Alert Functionality with Smart Fence AI Technology

- Advanced AI triggers instant multi-platform warnings:
 - Alarms when human distress or near-drowning behavior is detected
 - Alerts when human presence is detected in/around the pool
- Live, remote 24/7 pool monitoring, and continuous app-based streaming on your phone
- Eliminates false alarms - only detects distress and near-drowning behavior from humans
- The latest technology allows live recording of clips or events on the cloud

The Benefits

- Sales and Subscription Renewal Incentives: Unit sales and upfront paid subscription commissions
- Easy Installation & Maintenance: Trained support agents are available seven days a week.
- 100% Warranty Coverage: Free replacements in the event of failure for all active subscribers.
- Help your Customer Automate with Turnkey Online Marketing Materials: Partner Portal with brochures, videos, digital materials, demo app, and FAQ page.

CUSTOMER PRICING AND SUPPORT

- \$799 MSRP with free trial premium monitoring subscription for the first 3 months
- Monitoring subscription starts at \$12.99 per month after the first 3 months and includes a one-year warranty extension with each renewal.
- Live phone and chat support

WHAT'S IN THE BOX

- Wi-Fi enabled smart camera and self-install mounting hardware
- Smart AI base station
- 120V AC power supply (DC 15V camera, 5V 4A Hub)
- Set-up guide
