

Reinventing Pool Safety for Pets with AI

Introducing CamerEye's AI Pet Safety System for Pools

CamerEye is the first AI- powered system that Monitors, Detects and Alerts you when your precious pets are around and in the pool.

The CamerEye AI-trained system excels at differentiating humans and pets around the pool versus other motion detectors eliminating false detections from pool toys, leaves and non-human items.

Stay connected to your pool at all times and keep an extra “eye” on all your loved ones to preserve peace of mind.

CAMEREYE AI PET SAFETY SYSTEM FOR POOLS

- Advanced AI triggers instant multi-platform alerts when pets enter the pool area
- Eliminate false alarms – with special notifications for dogs and cats
- Distinct pet alerts – with different notification sounds from human alerts
- Latest technology allows live recording of clips of pet events for easy, cloud-based viewing anywhere, anytime

Prevent accidental pet entry into water

Safeguards against exposure to harmful pool chemicals or water intoxication

Minimizes pool bacteria levels

**Basic or premium monitoring subscription needed for features such as pet detection.*
