Reinventing Construction Monitoring
and Pool Safety with CamerEye

World's Most Complete AI-Camera Safety System

Save time and money, improve job safety and quality control, reduce liability, and provide peace of mind with CamerEye.

Smarter Pool Construction Monitoring, Inspection, and Pool Safety

Unlike traditional monitoring cameras and outdated pool alarms, CamerEye's complete AI-camera safety system transitions from the start of pool build, through construction and safety inspection to providing ongoing pool safety for homeowners after the job is done.

TOP 50
PRODUCTS

CONSTRUCTION MONITORING:

Monitor multiple job sites during pool construction for better project management and oversight, for quality of work, saving time, energy and money.

- Real-time video of job site status, personnel activity and equipment
- Analytics and recorded time-lapse video of construction process
- Site status
- Photo and video documentation
- Builder portal to oversee all job sites

POOL INSPECTION:

Help homeowners pass inspection with the first and only camera-based pool alarm to meet all major standards:

- Meets ASTM F2208-08 pool safety standards
- Complies with pool barrier laws in 33 states
- Replaces door alarms, floating pool alarms, and in-pool splash alarms.

HOMEOWNER WATER SAFETY:

Once a project is complete, simply pass on the already-installed camera system in one click to homeowners.

- Provides 24/7 monitoring
- Detects and alerts in real-time for people and pets in and around pool areas
- Fastest distress detection with AI cameras
